

Florida's GLBT Community

Florida's gay, lesbian, bisexual and transgender (GLBT) population is a significant, diverse and vibrant constituency of the Democratic Party. The Florida GLBT Democratic Caucus, an organization affiliated with the Florida Democratic Party, represents a constituency that has been estimated at over 1.175 million adults.

The Caucus is fast becoming an important political force within our state. There are currently 14 GLBT Democratic chapters throughout the state. As a community, over 70 percent of GLBT adults surveyed identified themselves as Democrats. Surveys indicate that the GLBT community registers and shows up to vote at higher levels than the general population.

Miami-Dade GLBT Community

Our GLBT total population is estimated at 155,000 of a total population of 2.25 million, representing approximately 7.0% of the population.

How GLBT Voting Population is Estimated

Data contained in the 2000 U.S. Census was used to estimate GLBT populations. The census asked how the second adult in the household was related to the first adult in the household. One of the options was "unmarried partner;" the survey asked the sex of both adults.

Florida's GLBT Registered Voters

The U.S. Census Bureau estimates the percentage of the Florida voting age population that are registered voters at 65.9%. The 2004 Gay and Lesbian Consumer Online Census estimates the percentage of Florida GLBT voting age population that are registered voters at 88.0%.
